Coupler Contact Insulation Cleaning Kit

Coupler Contact Insulation Cleaning Kit

Dirt contamination can cause electrical failures. The mating contact insulators can be efficiently cleaned with the PCK100 Cleaning Kit. The solvent used in our PCK-100 cleaning kit is an exceptional solvent degreaser formulated without chlorinated solvents or other hazardous ingredients. With its high flash point, the solvent provides an unprecedented degree of user safety. It is strong enough to remove grease, fuel oil, carbon and organic resins yet safe on most plastic and rubber surfaces.
