## Versi-Duct® Horizontal Cable Management System

### APPLICATION

A horizontal cable management system in a slotted duct configuration designed to route cable and mount onto a standard 19" equipment rack. The ducts also come with concealing covers and an assortment of cable management accessories.

### STANDARDS COMPLIANCE

Meets or exceeds all applicable standards: cULus listed and complies with TIA/EIA-568-B.

### PHYSICAL SPECIFICATIONS

Dimensions: See second page.  
Materials: PVC rated for 94V-O.

### DESIGN CONSIDERATIONS

- Use on front and back of cable rack to route and manage cables.
- Use with either fiber or copper cabling system.
- Bend-radius Compliant Cable Router complies with TIA/EIA-568-B standards, ensuring 1.18" bend radius.

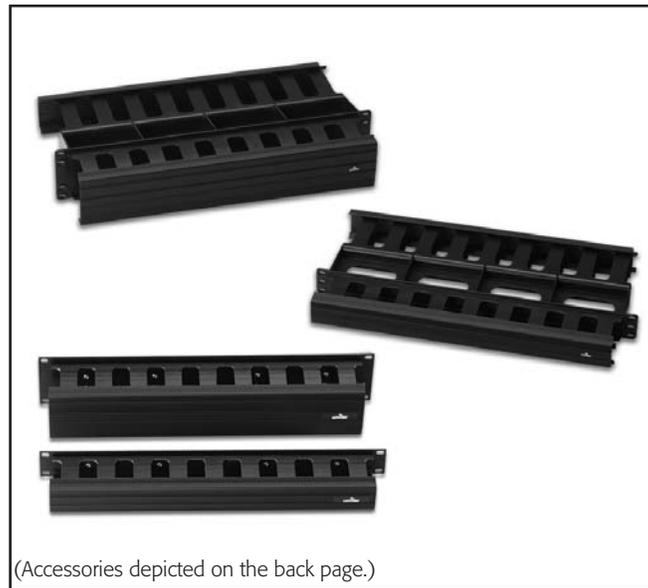

### ACCESSORIES

- **Bend-Radius Compliant Router** - Routes copper or fiber cable from inside the horizontal duct to the vertical duct. Maintains 1.18" bend radius minimum. (4 per horizontal cable management system. Also sold separately.)

#### Accessories sold separately:

- **Cable Retainer** - Adjusts to slide along the duct finger and includes break-away detail to accommodate all duct sizes.
- **Bend-Radius Compliant Router** - Routes copper or fiber cable from inside the horizontal duct to the vertical duct. Maintains 1.18" bend-radius minimum.
- **Extended Covers** - Extended Covers are designed to conceal cables transitioning from horizontal to vertical ducts.
- **Duct Cover Hinge** - The Duct Cover Hinge is designed to easily open and close duct cover for increased protection and easy access.
