

BLT Relight Series

RELIGHT with the Best Value LED Relight Assembly

Relighting a space has never been easier. The BLT Relight Series provides quick, easy installation into most existing fluorescent troffers and parabolics. Get the look, feel and performance of a full fixture replacement at a fraction of the price while reducing installation and material cost. The BLT Relight Series also provides control options to further enhance your space. Ultimately, it is your best value ambient RELIGHT solution for commercial projects.

Renovation needs? We've got options for that.

- A+ Capable configurations compatible with A+ certified solutions
- Lumen packages ranging from 2000 to 8500
- Available in 3000, 3500, 4000 and 5000K CCTs
- Up to 125 LPW; >130 LPW available with the high efficiency option
- Long-life LEDs maintain 80% of their lumen output at 60,000 hours (L80/60,000hrs)
- 0-10V eldoLED driver with 1% dimming (standard)
- Acuity Controls nLight® AIR enabled
- MVOLT 120-277V standard; 347V available
- Integrated emergency battery pack option
- Assemblies fit most existing troffer and parabolic fixtures
- Some configurations are DLC Premium or DLC Standard qualified products.

Multiple Diffuser Options

Compatible with Acuity Controls nLight® Air

Add an embedded wireless nLight Air smart sensor. nLight® AIR is a simplified wireless lighting control solution for new construction and renovation projects where running wires can be time consuming. The solution is comprised of Acuity Brands® LED fixtures with an embedded smart sensor and wireless battery powered nLight AIR wall switches. Start-up is streamlined with our mobile app, CLAIRITY.

Benefits

- Easier Installation with fixture embedded smart sensor, removing the guesswork saving time and money
- Save energy with occupancy and daylight sensing – up to 30% additional
- Aids in meeting and/or exceeding state and local energy codes for renovation

Simple As

1. Install nLight® AIR enabled fixtures. The embedded smart sensor helps to achieve energy code compliance.

2. Install wireless battery powered wall switch. Multiple configurations available to meet the needs of your customer.

3. Download the CLAIRITY app, pair the fixtures to the wall switch and configure the lights to match your space.

The BLT Relight Series helps end-users save money. Long-life LEDs reduce maintenance costs and offer energy savings of up to 60% versus fluorescent.

Minimize waste, disposal and disruption—installs in less than 5 minutes

Watch how quickly the BLT Relight Series can be installed at www.acuitybrands.com/BLTRinstall.

More sizes for greater flexibility

A+ Capable configurations support A+ Certified Solutions. A+ Certified solutions from Acuity Brands help you quickly and confidently select and implement lighting systems that are both compatible and consistent.

For a lighting application, A+ Certified means a verified consistent color appearance and dimming performance of all the fixtures within the certified solution. For lighting professionals, it means ease, freedom and confidence that all parts of a certified lighting system will operate together.

Go to www.acuitybrands.com/APlus or contact your local Acuity Brands representative for more information.

DesignLights Consortium® (DLC) Premium qualified product and DLC qualified product. Not all versions of this product may be DLC Premium qualified or DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified.
