

# YOUR PARTNER FOR UTILITY SOLUTIONS

The background of the entire advertisement is a photograph of a large electrical substation. The image shows several tall, dark steel lattice power pylons with multiple cross-arms and insulators. Numerous black power lines are suspended from these pylons, some extending across the frame. In the foreground, there are large, rectangular metal structures, likely transformer enclosures. The sky is a dramatic sunset, with colors transitioning from deep blue at the top to bright orange and yellow near the horizon. The overall atmosphere is industrial and suggests the scale of the utility solutions offered by the company.

## OVERHEAD SOLUTIONS

State Electric offers an extensive inventory of overhead distribution and pole line hardware, designed to perform in demanding field conditions. Our selection includes:

- Crossarms, Brackets, and Braces
- Insulators and Connectors
- Anchors, Guying Hardware, and Hardware Fittings
- Clamps, Terminals, and Grounding Components

We partner with leading manufacturers to ensure high strength, corrosion resistance, and regulatory compliance—helping contractors build reliable and long-lasting overhead systems.

## UNDERGROUND UTILITY SOLUTIONS

Our product offering also includes a comprehensive range of underground electrical and utility infrastructure solutions, such as:

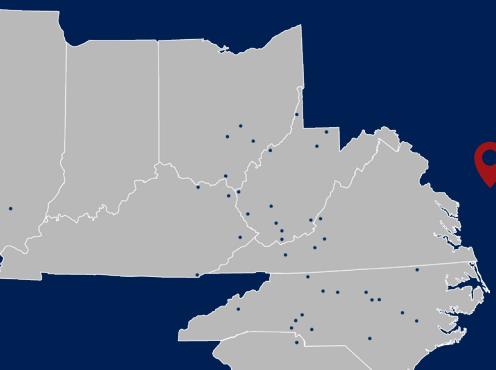

- Conduit, Duct, and Raceway Systems
- Underground Enclosures, Handholes, and Vaults
- Cable, Splicing, and Termination Products
- Markers, Warning Tape, and Utility Identification Solutions

Whether supporting new construction or system upgrades, State Electric provides the materials needed for safe, efficient, and code-compliant underground installations.
