

# CAT6 PATCH CABLES

## Cat6 Patch Cables

Quiktron's Cat6 patch cables deliver uncompromising performance and exceptional value. Each cable meets or exceeds Cat6 TIA/EIA-568-B-2.1 standards and are designed to handle bandwidth intensive applications. The pairs in these cables feature a high tolerance twist design that helps maintain the twist spacing up to the termination point. This drastically reduces both impedance and structural return loss (SRL) as compared to standard Cat5e wire and keeps Near-End Crosstalk (NEXT) levels to a minimum.

### Features:

- Connector: 50micron gold plated RJ45 male to male
- Conductor: 24AWG stranded copper
- Q-Series Cat6 patch cables are made in the U.S.A. and are available in custom lengths and colors
- Most Value Series patch cables available for same day shipping
- Q-Series and Value Series carry a lifetime warranty
