Note: To convert Midget or Class CC adder pole to single pole, use end barrier #U09301.

\* Available in any number of poles. Replace last digit in Catalog Number with number of poles needed.

Example: 303112 is a 12-pole screw/double QC connector Midget Fuse Block. Total width of N poles =  $(N \times .76) + .08$  inches. 12 poles =  $(12 \times .76) + .08 = 9.20"$ .

Recommended mounting screws for all Midget and Class CC fuse blocks: #8 (.164" dia.)
