

EK4436SM Stem Mount Electronic Photocontrol

New Product Introduction

Introducing the EK4436SM

The EK4436SM is a Die Cast Metal Stem Mount Electronic Photocontrol that will take the place of K4436M Thermal Photocontrol. The EK4436SM is HID/LED compatible and is higher quality at equivalent price to the thermal control. Also, included with the EK4436SM is a light guard (6LV1352).

Product Features:

- Non-drift silicon light sensor with IR filter
- DC relay with zero-crossing circuitry for extended life
- 15-year design life
- Conformal coated PCB
- Exceeds 10,000 ON/OFF switching cycles
- Ideal for single or multi-fixture HID and LED installation (up to 1650 W @ 277 VAC)
- 255 J MOV surge protection element
- 1/2" -14 NPSM threaded stem fits standard outlet boxes and wall packs
- Overall dimensions within ANSI C136.24 guidelines
- 18 awg wire leads
- Zinc Die Cast Housing

6A Electronic Ballast

8 YEAR Limited Warranty
